PROFESSIONAL SUMMARY

Adept software engineer with over three years of experience in creating, teaching, deploying, and maintaining large-scale distributed applications in the e-commerce and fintech sectors. Demonstrated leadership skills, strong work ethic, and extensive understanding of software development best practices. Capable of adapting to new technologies and contributing to software engineering teams.

SKILLS

Languages: JavaScript(ES6), TypeScript, Ruby, Golang, HTML, CSS, Markdown

Front-End Frameworks: React.js, Next.js, Redux, Ruby on Rails, SCSS, Bootstrap, TailwindCSS

Back-End/Database Frameworks: Express.js, Node.js, PostgreSQL

Testing: Capybara, Jest, Playwright, RSpec,

Tools: CircleCI, Docker Git, Github, Prisma ORM, OAuth, Sequelize ORM

WORK EXPERIENCE

NYC Tech Talent Pipeline | Lead Instructor - Contract | Remote - New York, NY 5/23 – 8/23

- Educated and mentored a cohort of 45 students in cutting-edge full-stack web development technologies such as React, Redux, Node, Express, and Postgres.
- Managed a team of 5 teaching assistants to ensure students received expert guidance and support throughout their learning journey.
- Revamped outdated curriculum materials by updating 32 lesson plans and exercises to align with current industry standards and best practices.

Enova International - Netcredit | Software Engineer | Remote - New York, NY 7/21 – 12/22

- Worked within a core team of 4, collaborating with a broader cross-functional group of over 25 developers and product managers, to prioritize and develop features for a large-scale consumer lending platform.
- Launched 4 innovative Ruby on Rails and Go features and resolved 5 critical production bugs.
- Achieved 97% test coverage through extensive unit and integration testing using RSpec and Capybara.
- Efficiently addressed 2 production-grade incidents as an on-call team member, ensuring smooth resolution.

Borhara Tech Consulting | Software Engineering Consultant | New York, NY 3/20 – 6/21

- Developed and designed state-of-the-art full-stack web applications using React for the frontend, Express and Node.js for the backend, and Postgres for database management.
- Architected and rolled out client-side portals enabling efficient data access and accounting automation..
- Leveraged modern UI/UX design principles and frameworks to optimize performance metrics, user satisfaction, and data accessibility.

EDUCATION

Fullstack Academy | Certificate of Completion | Web Development Immersive | New York, NY 10/19 - 2/20

- Successfully completed an intensive 17-week program, gaining expertise in modern web development technologies, including the PERN stack (PostgreSQL, Express, React, Node.js).

CUNY City College of NY | Bachelor of Arts - Political Science | Magna Cum Laude | New York, NY 2014

VOLUNTEER

Pursuit | Technical Volunteer | Long Island City, NY 2/20 – Present

- Conduct technical and behavioral interviews for prospective software engineering fellows, assessing their potential and determination.
- Mentor current fellows on coding best practices, algorithms, data structures, and professional development.
- Guide fellows in achieving software development goals and preparing for industry entry through actionable feedback and recommendations.
