PROFESSIONAL SUMMARY

Experienced Software Engineer proficient in JavaScript (ES6), TypeScript, Ruby, and Go. Proven track record in teaching full-stack web development, developing large-scale consumer platforms, and providing consultancy on full-stack web applications. Recognized for leadership in managing teams and updating curriculum. Proficient in resolving critical production challenges. Actively involved in mentoring and evaluating future software engineers.

SKILLS

Languages: JavaScript(ES6), TypeScript, Ruby, Go, HTML, CSS, Markdown, Lua

Front-End Frameworks: React.js, Next.js, Redux, Ruby on Rails, SCSS, Bootstrap, TailwindCSS

Back-End/Database Frameworks: Express.js, Node.js, PostgreSQL

Testing: Capybara, Jest, Playwright, RSpec,

Tools: CircleCI, Docker, Git, Github, Prisma ORM, OAuth, Sequelize ORM

WORK EXPERIENCE

NYC Tech Talent Pipeline | Lead Instructor | Remote - New York, NY

2/23 – 9/23

- Taught a cohort of 45 students full-stack web development technologies such as React, Redux, Node, Express, and Postgres, leveraging best practices and current industry standards.
- Managed a team of 5 teaching assistants to ensure students received guidance and support throughout their learning journey.
- Revamped outdated curriculum materials by updating 32 lesson plans and exercises to align with current industry standards and best practices.

Enova International - Netcredit | Software Engineer | Remote - New York, NY

7/21 – 12/22

- Worked cross-functionally with product managers, designers and engineers to prioritize and develop both user facing features in Ruby and Typescript and incorporating business logic in Go for a large-scale consumer lending platform.
- Launched 15+ innovative Ruby on Rails and Go features and resolved 5 critical production bugs.
- Efficiently addressed 2 production-grade incidents as an on-call team member, ensuring smooth resolution.
- Onboarded 2 new engineers to become proficient in Ruby on Rails, Go, and internal tools.

Borhara Tech Consulting | Software Engineering Consultant | New York, NY

3/20 – 6/21

- Developed and designed state-of-the-art full-stack web applications utilizing Next.js, Express, Node.js, and Postgres.
- Architected and rolled out administrator portals enabling centralized data management and access.
- Leveraged modern engineering principles to increase readability and maintainability of code base.

Projects

Odin HR Dashboard | React.js, TailwindCSS, D3.js, Express.js, PostgreSQL

<https://odin-indol.vercel.app/>

- A full-stack HR platform that currently manages employees. In future releases, it will contain an applicant pipeline, a fully go driven backend with concurrency, and a microservice architecture.

EDUCATION

Fullstack Academy | Certificate of Completion | Web Development Immersive | New York, NY

10/19 - 2/20

- Successfully completed an intensive 17-week program, gaining expertise in modern web development technologies, including the PERN stack (PostgreSQL, Express, React, Node.js).

CUNY City College of NY | Bachelor of Arts - Political Science | Magna Cum Laude | New York, NY

2014

VOLUNTEER

Pursuit | Technical Volunteer | Long Island City, NY

2/20 – Present

- Conduct technical and behavioral interviews for prospective software engineering fellows, assessing their potential and determination.
- Mentor current fellows on web development best practices, algorithms, data structures, and professional development.
- Guide fellows in achieving software development goals and preparing for industry entry through actionable feedback and recommendations.
